Lek

når barnet bruker alternativ og
supplerende kommunikasjon (ASK)

Tematavler

Tematavler til lek

Tematavlene er laget som vedlegg til heftet «Lek når barnet bruker alternativ og supplerende kommunikasjon, ASK.» De er ment som inspirasjon, og gir forslag til ordforråd til åtte ulike leker/aktiviteter. Oppsettet er inspirert av de dere finner i bøkene med grafiske symboler som Statped har publisert sammen med Cappelen Damm [Grafiske symbol i bildebøker | statped.no](http://statped.no). Tematavlene er ikke en erstatning for et kommunikasjonsmiddel barnet allerede har, men om barnet allerede har et kommunikasjonsmiddel kan du kanskje bruke tematavlene for å finne tilsvarende ord der?

Når vi har laget tematavlene har vi vektlagt noen prinsipper

- Vi har flere ordklasser tilgjengelig
- Ordklassene er plassert slik fra venstre mot høyre; pronomen, verb, preposisjoner, substantiv og adjektiv. Det gjør det mulig å uttrykke setninger ved å peke fra venstre mot høyre (vanligvis).
- Vi har mange like ord på de ulike tematavlene. Dette er ord som er relevante og nyttige i mange situasjoner.
- Vi har i størst mulig grad plassert like ord på samme sted, og brukt de samme grafiske symbolene for ordene.

Når du skal pekeprate ved hjelp av tematavlene kan dette være nyttig å ha i tankene:

- Bruk litt tid på å bli kjent med oppsettene. Vær oppmerksom på de felles ordene.
- Du kan bruke tematavlene en og en, eller legge de sammen i en «lekebok»
- Legg de i den rekkefølgen du ønsker, klipp til og skriv på flippen hva som er tema
- Det er mange ord som ikke er på tematavlene! Når du pekeprater og et ord mangler så sier du det høyt og peker på de ordene som er tilgjengelige.
- Det er ikke grammatiske bøyinger på tematavlene. De fleste verb er lagt inn i infinitivform. Du må derfor peke på ordet og si det i riktig grammatisk form. Skal du si «Jeg har ...» må du peke på «jeg/meg/min» og si «jeg», og deretter på «ha» og si «har».
- Bruk «maskin/bok»-symbolet når du ikke finner ordet på tematavlen.

Utvid selv med utgangspunkt i malen som ligger ved

- Om du vil endre eller lage nye sider, for eksempel til butikk- eller billeken så kan du kan bruke de faste ordene vi har tatt med, og supplere på de tomme rutene (se vedlagt mal).
- Se for eksempel på butikkleken! Vi har valgt å legge inn ulike typer butikker, og anbefaler at dere lager ekstra sider med varer. På matbutikken vil dere trenge frukt, grønnsaker, kjøtt/fisk, drikke og godteri. I dyrebutikken kan dere ta inn både norske dyr og mer eksotiske dyrearter, men også mat og utstyr som dyrene trenger. På samme måte kan dere utvide ordforråd i billeken; om det er mange som har el-bil så bør dere kanskje utvide med ord som blir brukt med tanke på lading, eller hva med verksted, bensinstasjon, vaskehall, parkeringshus eller veiarbeid?

Tematavlene er laget med Picture Communication Symbols (PCS), etter avtale med Tobii Dynavox som eier alle rettighetene til PCS.
